

SUBSTANCE OF EXAMINER INTERVIEW

Applicant's Attorney (Richard Bucher) and Examiner Lemma conducted a teleconference on June 26, 2007. During the teleconference, Applicant's Attorney and Examiner Lemma discussed the following:

- § 101 rejections – Examiner Lemma and Applicant's Attorney agreed on certain claim amendment approaches that, if made, will result in the Office withdrawing the § 101 claim rejections.
- §102(b) rejections - Examiner Lemma and Applicant's Attorney discussed the QuickTime reference cited by the Office. After considering the arguments of Applicant's Attorney that the QuickTime reference does not disclose all the claimed subject matter, Examiner Lemma agreed to reconsider the Office's rejection and the relevance of the QuickTime reference. In this regard, Examiner Lemma suggested that Applicant's Attorney briefly reiterate these arguments in this response. Examiner Lemma also suggested further clarifying the terms "multimedia stream" in claim 1 and "arbitrary data" in claim 26.
